

VALV-TROL REVERSE ACTING (NORMALLY CLOSED) QUICK ACTING 2-WAY VALVES

1/2" to 3" NPT, 150 or 300 PSI (10 or 21 Bar)

The **Valv-Trol Quick Acting, Loose Disc Valves** are a diaphragm actuated valves used where remote operation is needed. Typical operations include steam heating, water cooling, water circulation, or liquid transfer. It is not intended for power hydraulic systems because of their loose discs and unbalanced design.

These valves have heavy cast bronze bodies and replaceable stainless steel trim for long service life with most liquids. The standard stem packaging is suitable for most liquids up to 500°F (260°C).

Although these valves are quick acting, they are often used with a reverse acting pressure controller to successfully regulate the pressure (temperature) of steam heated components.

PORT SIZE	N.C. MODELS 150 PSI / 300 PSI (10 Bar / 21Bar)	Cv RATING
1/2"	D-2202 / D-3202	3.7
3/4"	D-2204 / D-3204	7.1
1"	D-2206 / D-3206	13.3
1-1/4"	D-2208 / D-3208	21.0
1-1/2"	D-2210 / D-3210	28.0
2"	D-2212 / D-3212	37.5
3**	D-2216* / D-3216*	101.0

*Rating may be reduced on 3", 300# model in some applications.

35 PSI (2.4 Bar) air
recommended on
diaphragm

The Valv-Trol Advantage

Many parts of Valv-Trol Valves are interchangeable between the same size 2-way and 3-way valves. This helps you to reduce your spare parts inventory and allows us to maintain a more complete inventory for emergency availability and shorter lead times.

Our valves are all subjected to 100% pressure testing to ensure a drop tight seal before we ship to our customers.
